

## PRESS RELEASE

### **Medacist Solutions Group Grants License to Pandora Data Systems**

**Cheshire, CT October 1, 2008:** Medacist Solutions Group today announced that it has reached an agreement with Pandora Data Systems settling all patent infringement claims.

Medacist Solutions Group has granted Pandora Data Systems a license to patent rights associated with Medacist Solution Group's U.S. Patent No. 6,842,736, entitled "Drug Auditing Method and System".

To complement its investment in new technology, Medacist is committed to protecting its cutting edge technology by seeking new patents and obtaining new licensees through active enforcement of its existing patent portfolio. Patent law provides protection against companies and individuals that make, use, offer to sell, or sell an infringing product. If the infringement is considered willful or intentional, then damages may be trebled and attorneys' fees awarded.

#### **About Medacist**

Founded in 1998, Medacist Solutions Group is the recognized leader in developing, licensing and marketing comprehensive reporting services known as RxAuditor® for automated dispensing systems in the healthcare industry.

The entire RxAuditor® suite of reporting services including; RxAuditor®, RxAuditor OnDemand®, RxAuditor Alert®, RxAuditor 360® and RxAuditor Report Card® will help hospitals manage their automated pharmacy dispensing systems more efficiently than ever before.
