Medacist Solutions Group Receives 2009 Best of Business Award

Small Business Commerce Association's Award Honors the Achievement

SAN FRANCISCO, November 7, 2009: Medacist Solutions Group has been selected for the 2009 Best of Business Award in the Medical field-related association's category by the Small Business Commerce Association (SBCA)

The Small Business Commerce Association (SBCA) is pleased to announce that Medacist Solutions Group has been selected for the 2009 Best of Business Award in the Medical field-related association's category.

The SBCA 2009 Award Program recognizes the top 5% of small businesses throughout the country. Using consumer feedback, the SBCA identifies companies that we believe have demonstrated what makes small businesses a vital part of the American economy. The selection committee chooses the award winners from nominees based off information taken from monthly surveys administered by the SBCA, a review of consumer rankings, and other consumer reports. Award winners are a valuable asset to their community and exemplify what makes small businesses great.

About Small Business Commerce Association (SBCA)

Small Business Commerce Association (SBCA) is a San Francisco based organization. The SBCA is a private sector entity that aims to provide tactical guidance with many day to day issues that small business owners face. In addition to our main goal of providing a central repository of small business operational advice; we use consumer feedback to identify companies that exemplify what makes small business a vital part of the American economy.

About Medacist Solutions Group, LLC

Connecticut based Medacist is committed to the optimization of healthcare automated dispensing systems. Medacist's drug auditing system commercially known as RxAuditor is a complete service based reporting solution that will help hospitals to manage their automated pharmacy dispensing systems efficiently. The RxAuditor patented methodology evaluates key metrics such as drug diversion trending analysis, operational efficiency such as stock-outs and refills. RxAuditor measures regulatory compliance in areas such as override, discrepancy, waste, nurse practice and patient safety analysis. With the RxAuditor service-based solution, hospitals no longer need to perform the time consuming tasks associated with traditional auditing. RxAuditor transforms archived data into actionable information that enables hospital pharmacies to measure, monitor and manage their pharmacy automation system for virtually all automated dispensing vendors.
